SELECTED PROJECTS

Sound Design | Foley | Mix - Video Games

2026

- *Aster (Game Jam Demo)* - **Sound Designer, Foley Artist -** *Unity*
  - Took the lead as the sole audio designer for this project creating stylized sound for a specific story-book style video game demo.
  - Worked in collaboration with programmers and designers to ensure seamless execution of sound assets between FMOD and Unity.
  - Created, revised, and tested systems within a tight deadline of a week, while navigating remote work across various timezones, locations, resources, and team experience.

2025

- *ReShaped (Game Jam Demo)* - **Sound Designer, Foley Artist, VO Recordist, Wwise Implementer, Technical Designer, Co-Writer, Co-Creator -** *Unreal Engine 5*
  - Collaborated with the team to create the vision, story, and dialogue for the game.
  - As the sole sound designer on this project, I was also responsible for creating all the audio assets and implementing them using Wwise and UE5 blueprints to build, test, and QC sounds, ensuring they're reactive in-game to player interaction.
  - The project was completed over 1.5 weeks.
  - Designed and implemented a reactive music system using Wwise and UE5 trigger boxes; music layers responded to player location and gameplay state to support narrative tension and pacing.

2024

- *TBA* **-** *Survival Platformer* **- Sound Designer, Foley Artist -** *GoDot*
  - Sole sound designer on a solo dev project creating, implementing, and testing unique sound assets for a survival-based platformer running in GoDot.

2023

- *NDA* - **Sound Designer (Contract)**
